

SHANKAR SHIVALINGESH BELAVI

Bengaluru, Karnataka, India | +91 7899296623 | shankarbelavi30@gmail.com | linkedin.com/in/shankarbelavi | github.com/shankarbelavi

PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate with hands-on experience designing, building, and deploying full-stack web applications through academic projects and independent development work. Skilled at taking projects from idea to production, writing clean and efficient code, and collaborating across the software development lifecycle. Strong problem-solving ability with a focus on building reliable, scalable, and user-friendly software. Seeking a Software Development Engineer internship/role to design and build impactful products as part of a high-performing engineering team.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, FastAPI, Scikit-learn, OpenAI API, WebRTC, Socket.IO

Databases: MySQL, MongoDB

Core Computer Science: Data Structures & Algorithms, Analysis & Design of Algorithms, Object-Oriented Programming, DBMS, Software Development Life Cycle

Tools & Platforms: Git, GitHub, VS Code, Google Cloud Platform, REST APIs, OAuth, SMTP

Soft Skills: Time Management, Leadership, Adaptability, Communication, Teamwork

PROJECTS / EXPERIENCE

FarmConnect — Smart Agriculture Platform

Jan 2026 – Present

Tech Stack: React.js, FastAPI, Python, MongoDB, Scikit-learn, Blockchain, QR Code

- Built a full-stack smart agriculture platform combining machine learning, NDVI-based remote sensing, an AI chatbot, and blockchain technology for farm-to-fork supply chain transparency.
- Developed crop recommendation models using Random Forest and Decision Tree algorithms, and yield prediction models using Linear Regression and Random Forest Regression, trained on agricultural and climatic datasets.
- Engineered a QR-code and blockchain-based traceability system for secure, tamper-proof supply-chain tracking.
- Presented FarmConnect at ICRET 2026, an international conference, showcasing machine learning-driven analytics and blockchain traceability system.

BlockLearn — AI-Enhanced Gamified Skill Swap Platform

Aug 2025 – Dec 2025

Tech Stack: React.js, TypeScript, Node.js, Express.js, PostgreSQL, Python, WebRTC, Gemini API, Solidity

- Built a full-stack decentralized skill-exchange platform supporting 100+ active users with real-time chat and video communication.
- Designed and implemented a skill-based matching engine using 10+ user attributes to improve mentor-learner discovery and engagement.
- Integrated WebRTC and Socket.IO for low-latency messaging and video calls; developed Solidity smart contracts for blockchain-verified reputation and skill validation.
- Filed a patent application for the platform's skill-matching and reputation-verification system.

Inter-College Event Management Website

Mar 2025 – Jun 2025

Tech Stack: React.js, PostgreSQL, SMTP, OAuth, OpenAI API

- Designed, developed, and deployed a web-based event registration system supporting 2,500+ users.
- Implemented OTP-based email authentication to prevent fake registrations and improve data accuracy.
- Automated unique registration ID generation and digital pass distribution via WhatsApp integration.

EDUCATION

B.E., Computer Science Engineering — Sai Vidya Institute of Technology, Bengaluru

2023 – 2027

CGPA: 8.9 / 10

XII, Karnataka State Board — SNJPSNMS INDP PU College

2023

Percentage: 85.83%

CERTIFICATIONS & ACHIEVEMENTS

- Infosys Springboard — Certified training in C Programming, Data Structures & Algorithms, Analysis & Design of Algorithms, Python, Java Concepts, and Design Thinking.
- Smart India Hackathon (SIH) 2025 — College-Level Finalist; contributed to a centralized digital credential aggregation system with secure verification.

EXTRA-CURRICULAR ACTIVITIES

- Gold Medalist, National-Level Taekwondo Championship.
- Sergeant-at-Arms, Rotaract Club of SVIT — coordinated meetings, events, and member engagement.
- Social Media Lead, Coding Club SVIT — created digital content and grew participation in technical events.
- Student Placement Coordinator, SVIT Training & Placement Cell — assisted with campus recruitment drives and assessments.
